Hello Ann,

I am doing well. I hope your summer is going well also.

There aren't any updates on the Reckitt trial. If I understand correctly, we are waiting for meetings between our counsel, Reckitt's counsel, and the ALJ to discuss schedule and some procedural stuff. To the best of my knowledge this has not been scheduled yet. Great news on the progress towards RUP status.

Regarding 8845-125, PPLS is not always updated as often as it should be. The dates listed in the Federal Register are applicable dates.

Regarding 8845-127, This one is a little tricky. 8/1/13 is the effective date of cancellation. The registrant has been granted existing stocks that they must sell or distribute by 11/1/13, but those other than the registrant (retailers, other distributors, anyone except Spectrum) may sell existing stocks of 8845-127 until stocks are exhausted.

Regarding 7173-283 & -285, here is a link to the cancellation order in the FR
<http://www.gpo.gov/fdsys/pkg/FR-2013-05-01/html/2013-10188.htm>.

Please let me know if you have any further questions, I hope I answered them all.

Regards,
Rusty

Subject: rodenticide cancellation dates

Hi Rusty,

Hope all is well! When you have a chance, I was hoping you could help me out with some questions I have about the registration status of the Liphatech and Spectrum rodenticide products that were part of the original notice of intent to cancel?

In the attached notice dated 3/13/13, I see that EPA Reg. No. 8845-125 has a cancellation date of 4/12/13; however, PPLS still shows it as active. Has this product been officially canceled as of 4/12/13?

Also in the 3/13/13 notice, I'm not clear about the difference between the 8/1/13 cancellation date and 11/1/13 date registrants are prohibited from selling & distributing EPA Reg. No. 8845-127. I

thought the cancellation date was the same as the date that registrants can no longer sell and distribute?

PPLS shows that 7173-283 & -285 were inactivated May 1, 2013. Is this an official notice associated with this? I could not readily find it in the docket.

Are there any updates on when the Reckitt hearing might take place?

As for DPR, we are still on track to publicly release our proposed regulations to restrict the second gens later this summer. We should also have our white paper finalized soon. I will send you the documents when they are finalized.

Thanks so much!

Ann
